Broker's Comments:

The Nimbus 380 Coupé is a very popular model from the Swedish quality shipyard - Nimbus Boats AB. A boat that, thanks to the V-shaped hull and double 260hp D4s, delivers a wonderful experience and is equally suitable for the sea, lakes and canals.

The unique thing about this model is the layout where you can manoeuvre her from the inside with 360 degree vision and well protected from the elements. On nice days there are two openable hatches in the hard top.

With a cruising speed of about 20 knots, you get good fuel economy and once in port you enjoy the generous and well-disposed areas on board. In the stern, there is a lovely cockpit with a U-shaped sofa and opening to the large bathing platform. Inside the sliding door, you are greeted by a bright saloon with a practical kitchenette. Below decks is two cabins. Owner's cabin in the bow with a comfortable double berth and guest cabin amidships. To make life on board comfortable, there is also a spacious toilet with a shower cabin.

We now have the pleasure of offering this fine example that has only had two owners. She lived her first 10 years in the lakes of Holland before the current owner brought her to the west coast of Sweden. The boat has been updated with a new and larger battery bank, battery charger and inverter, and service is done professionally at Orust. This boat has all the necessary equipment to handle the tasks on board as well as possible, with the help of bow thrusters and electric windlasses in the bow and stern, mooring becomes simple and smooth both in the natural harbour and in the marina.

Key Facts:

- 2 x Volvo Penta D4-260.
- Protected driving position.
- 6 berths.
- Electric windlass in bow and stern.
- Bow thruster.
