BROKER'S COMMENTS

The Beneteau Swift Trawler 34 has become a very popular model with over 350 units sold, offering comfortable accommodation for 4 people in 2 cabins with double berths and a sofa that can be converted into a double berth in the saloon.

This is a seaworthy design that is based on an attractive flared semi-displacement hull, which provides comfortable movement in a wide range of speeds. The boat is suitable for trips on the open sea as well as near the coast and is capable of being driven at speeds of up to approx. 20 knots. A reliable Cummins diesel engine of 425hp with shaft drive provides an economic operating cost, with consumption of approximately 1L/Nm at speeds up to approx. 7 knots.

NATAL D'Ô is a 2016 model of the Swift Trawler 34 flybridge model. Safe and extremely spacious, the flybridge includes a four-person seating area, a driver's seat and a large sunbathing area - all with an outstanding view.

Downstairs, there is a weather-protected teak covered aft cockpit, with space for chairs and a table. From the aft cockpit you can easily get out onto the large bathing jetty, where there is a hydraulic gangway and space to store a dinghy.

When you enter the boat through the large sliding glass doors, you encounter an open floor plan with a saloon, kitchen and an inside steering area. The large windows around the entire saloon provide fantastic natural light. In the forward part of the boat there are two cabins with double berths, bathroom and good storage spaces.

NATAL D'Ô is a well-equipped boat in good general condition for her age.
