Hull Material	Carbon
Engine	1 x Yanmar 4JH57, 57hp
Builder	Arcona Yachts
Designer	Stefan Qviberg
Accommodation	5 berth in 3 cabins

BROKER'S COMMENTS

The Arcona 435 is a true performance cruiser that was introduced in 2018 and won the European Yacht of the Year award in 2019. This sleek, modern yacht is designed to excel in races while also being perfect for family cruising. Designer Stefan Qviberg crafted the Arcona 435 to offer both comfort on long voyages and exceptional sailing performance. According to Stefan;

"The 435 features an efficient sail design, low weight, and the hallmark stability of every Arcona yacht. Its design is modern both inside and out."

With laminated bulkheads and a galvanized steel girder, the Arcona 435 ensures safety and stability. It boasts a slightly larger sail area compared to previous models, enhancing upwind performance. With its light weight, it is highly responsive to trim and a pleasure to sail. Arcona 435, ELINE V was specified with a carbon hull, deck, and spars, further reducing her weight.

Arcona 435 Carbon, ELINE V has been used for cruising along the Swedish west coast and has been meticulously serviced and stored at Orust Yacht Service during the winter. Her interior features a contemporary design with oak furnishings, teak floorboards, and a white ceiling. The layout includes three cabins, two with double berths and one with a single berth, as well as two bathrooms, one of which has a separate shower compartment. The saloon is equipped with a sofa, two armchairs, a folding table, and an L-shaped galley located just by the entrance stairs.

The deck, coach roof, and cockpit are finished with teak. The cockpit features two carbon steering wheels, two plotters, and four sailing instruments. The carbon mast is fitted with a furler boom, a hydraulic aft stay tensioner, and a boom vang. Four electric winches make sail handling effortless. ELINE V is exceptionally well-equipped with retractable bow and stern thrusters, lithium batteries, generator, air conditioning, diesel heater, 40" TV, and an outstanding sound system, among other features.

If you are searching for a lightly used, fully equipped, fast performance cruiser in excellent condition, this yacht could be the ideal choice.

Key Facts:

- Carbon mast.
- Furler boom.
- 4 x electric winches.
- Main, Jib and Code 0.
- Bow- and Stern thruster.
- Lithium batteries.
- Generator.
- Complete navigation system (B&G).
- Air conditioning.
- Sleeps 5 persons in 3 cabins.
- Serviced, maintained, stored inside during wintertime at Orust Yacht Service.
